A Loan was offered to the town for 1.5 million with the interest at 1%. This would help to provide larger pipe to handle the water flow. The engineers felt the upgrade would greatly improve our water system. The loan has been approved the town just needs to accept it. The engineers will go to CIB in April and are hoping with this money our loan/grant will be approved.

The council proposed a public hearing to be held on April 13, before the regular town meeting to discuss the money for the water loan should it be necessary. The clerk would ask Kelly Chappell, the engineer for input.
